

Important Notice from Hancock Whitney Corporation About Your Prescription Drug Coverage and Medicare

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with Hancock Whitney Corporation and about your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan (if eligible). If you are considering joining, you should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the plans offering Medicare prescription drug coverage in your area. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

There are two important things you need to know about your current coverage and Medicare's prescription drug coverage:

1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.
2. Hancock Whitney Corporation has determined that the prescription drug coverage offered by Employee Health Protection Plan for Hancock Whitney Corporation ("Employee Health Protection Plan") is, on average for all plan participants, expected to pay out as much as standard Medicare prescription drug coverage pays and is therefore considered Creditable Coverage. Because your existing coverage is Creditable Coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.

When Can You Join A Medicare Drug Plan?

You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15th to December 7th.

However, if you lose your current creditable prescription drug coverage, through no fault of your own, you will also be eligible for a two (2) month Special Enrollment Period (SEP) to join a Medicare drug plan.

What Happens To Your Current Coverage If You Decide to Join A Medicare Drug Plan?

You generally can stay covered under the Employee Health Protection Plan if you decide to join a Medicare drug plan. However, different rules apply to those who become covered under the Employee Health Protection Plan as a Whitney retiree or who plan to be covered as a Whitney retiree (see below).

Impact of Part D Enrollment on Whitney Retirees

If you decide to enroll in a Medicare prescription drug plan (Medicare "Part D"), terminate your coverage under the Employee Health Protection Plan, and then terminate employment (without previously re-enrolling in the Employee Health Protection Plan), you and your dependents (if any) will permanently lose eligibility for the Employee Health Protection Plan. Whitney retiree coverage eligibility conditions are more fully explained in the Summary Plan Description for the Employee Health Protection Plan.

Your Whitney retiree coverage pays for other health expenses in addition to prescription drugs, such as doctor visits and hospital stays. If you become covered under the Employee Health Protection Plan as a Whitney retiree and later enroll in Medicare Part D, in addition to losing coverage for prescription drugs, coverage for other health expenses will also be permanently lost (you cannot re-enroll at a later date).

When Will You Pay A Higher Premium (Penalty) To Join A Medicare Drug Plan?

You should also know that if you drop or lose your current coverage with Hancock Whitney Corporation and don't join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later.

If you go 63 continuous days or longer without creditable prescription drug coverage, your monthly premium may go up by at least 1% of the Medicare base beneficiary premium per month for every month that you did not have that coverage. For example, if you go nineteen months without creditable coverage, your premium may consistently be at least 19% higher than the Medicare base beneficiary premium. You may have to pay this higher premium (a penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to join.
